

Writing a Thesis Using Markdown

Sachiko Tajima s1250117

Supervised by Prof. Yutaka Watanobe

1 Abstract

This is a template written in a Markdown following the University of Aizu graduation thesis format [1]. If you have any questions or something you don't understand, just refer to kueue-thesis-markdown [2].

2 Introduction

If you want to put figure or graph in thesis, write in the text as in \LaTeX writing.

The \LaTeX Distribution kit includes the following files in table 1.
